SUMMARY

Computer Science & Artificial Intelligence student at Helwan University, focused on Front-End Development and on how AI can make software more useful. I build responsive web projects and pair them with training in cybersecurity, business development, and digital marketing. Seeking Front-End, Software Development, or AI/ML internships.

EDUCATION

Helwan University, Cairo | Computer Science & Artificial Intelligence | 2024 - 2028 (expected)

PROJECTS

- **BridgeTech** (InnovEgypt): platform concept connecting Computer Science and Engineering students with industry through project-based learning, learning roadmaps, and mentorship. Developed with empathy mapping, 5 Whys, ideation, and prototyping.
- **Personal Portfolio Website**: responsive portfolio built with React, Vite, and Tailwind CSS, deployed on Vercel (ismail-salah-portfolio.vercel.app).
- **BrightSmile SOSTAC Marketing Plan**: full digital marketing plan for a fictional dental clinic covering market and competitor analysis, SMART objectives, channel strategy, a 6-month action plan, and KPIs.
- **Binary to 7-Segment Decoder**: digital logic project using multiplexers (binary input to 7-segment display output).
- **Cybersecurity Awareness Materials**: guides on phishing, password security, and best practices for small businesses.

CERTIFICATES & TRAINING

- **Network Security**, Cybersecurity Academy (Undergraduate Level), NTI - 60 technical hours, 2026
- **Digital Marketing For Healthcare Professionals**, MedSpark (accredited by ITOL) - Oct 2026
- **Generative AI in Action: Case Studies and Future Outlook**, Manara - Oct 2026
- **Edraak (sponsored by Crescent Petroleum)**: AI for Employment Specialization; AI in the Workplace; Introduction to AI and Generative AI; Beyond AI - 2026
- **InnovEgypt Training Program**, ITIDA / TIEC - 2026 | **Business Development Course**, GDGC AI-Azhar | **Freelancing Training**, NTI

SKILLS

Front-End: HTML, CSS, JavaScript, React, Vite, Responsive Design

AI & Programming: Python, AI/ML fundamentals, Generative AI

Security & Systems: Network Security fundamentals, Cybersecurity Awareness, Digital Logic

Business & Marketing: Digital Marketing (SOSTAC), Business Development, Market and Competitor Analysis, Social Media Marketing, Freelancing
